## Stanford Health Care Peer 2 Peer Mentoring Program

Would you like to talk with someone who has been through a similar treatment and knows how it feels?

- The Stanford Peer 2 Peer Mentoring Program offers trained, experienced peer mentors to share what they've been through with patients and caregivers.
- You may contact your mentor in person, or over phone, text, or email. How often depends on your comfort level.
- All mentors are Stanford volunteers who have been trained on privacy, how to navigate the health care system, and how to support others. To keep everyone safe, they have all had health screenings and background checks.

For more information, contact your social worker or program coordinator, Michael Thomas:

## Peer 2 Peer Request for Mentor

The Peer 2 Peer Program will attempt to partner you with a mentor who shares similar health and life circumstances. As a participant in the program, you agree to release the following information to your mentor unless otherwise specified.

Name:	Date of Birth:
Address:	Phone:
	Email:
Gender:	Race/Ethnicity:
Primary language:	Marriage status:
Employment status:	
Primary diagnosis/treatment:	
Are you a patient or caregiver:	
What is your preferred contact method?	
Are there any particular topics you are interested in speaking with a mentor about?	
Your signature below confirms your understanding that, as required by law, your mentor may need to discuss critical concerns about you (i.e. possible danger to yourself or others) with appropriate supportive resources.	
Signature:	Date:
Your signature below gives the Peer 2 Peer Coordinator permission to share limited updated information about you with the Peer 2 Peer mentor as appropriate.	
Signature:	Date:

Please return form to your social worker, or Michael Thomas, LCSW, Peer 2 Peer Mentorship Coordinator, at <a href="mthomas@stanfordhealthcare.org">mthomas@stanfordhealthcare.org</a>, or mail attn: Michael Thomas to SHC 300 Pasteur Dr. Rm HC029, M/C 5617, Stanford, CA 94305
